

INVITATION TO A NEW ARCHITECTURAL STYLE

Designer Home "Villa Moderna"

The Villa Chic is a further development story in a modern construction method also here in SWFL. In addition to our usual quality standard are a lot more offered in the area of design.

The floor plan of Villa Moderna (similar to Villa Chic) can be used ambivalently. A classic design with a hipped roof up to the presented flat roof version can be implemented without big changes.

This great, spacious and modern house is offered at a moderate price in addition to the diverse space offer despite the high standard of construction.

We will gladly show you what we have to offer. Nevertheless all of the latest findings in technology, architecture, structure and efficiency for quality of life.
